0.Feedback Analysis

A well-conceptualised feedback system involving all major stakeholders provides an understanding of ground realities. Using feedback from all stakeholders proper planning can be made by the faculty in consultation with experts.

The College has a very efficient mechanism to collect feedback from all the stakeholders - students, parents, alumni and employers annually through structured feedback systems. IQAC prepares questionnaires in prescribed format.

The feedback received from students will be analyzed and will take corrective measures if necessary. In addition to formal feedback, individual faculty members also obtain informal feedback from students, review them and use them for improving their performance.

The classroom interactive sessions also provide opportunities to collect the opinions of the students about the Institution. The principal will also collect students' views about teachers' performance. Alumni feedback will be collected during alumni meet and parents' feedback will be collected during parents' meet. More than ninety percent of students have given the positive response.

The institution has an excellent academic environment which provides platforms for curricular, co-curricular, extracurricular, cultural and sports programmes.
