Sharanabasaveshwar College of Commerce, Kalaburagi

2.6.2 Attainment of Programme outcomes, Programme specific outcomes, and course outcomes are evaluated by the institution

Sharanabasaveshwar College of Commerce, Kalaburagi is Affiliated to Gulbarga University, Kalaburagi. We offered under Graduate, and Certificate and add-on courses under the Department of Commerce.

The institution followed the curriculum designed by Gulbarga University. The programme outcome, program-specific outcome, and course outcome are evaluated by the institution and the same is communicated to the students in the formal way of discussion and by feedback analysis.

After measuring the attainment of POs, PSOs, and COs, it has been observed that the strength of the students as well as the passing percentage of the students is increasing progressively.

We assess students' performance through exams, internal tests, assignments, projects, presentations, seminars, and exercises. Institutions evaluate data on students' performance with the help of marks and credit points.

Besides, students' progression to higher studies that are from Undergraduate to Post Graduate seems to be increasing consistently every year. Similarly, the ratios of students' placement and achievement towards entrepreneurial activities are also increasing. We identified the areas of strengths and needs for improvement and took utmost care of measuring the level of attainment of POs, PSOs, and COs and followed formal as well as informal mechanisms for the measurement of attainment of the outcomes.

Through the feedback analysis, we aggregate the assessment data to generate summary statistics and visualizations that provide insights into student attainment of program and course outcomes. Based on the analysis, provide feedback to faculty members, curriculum developers, and other stakeholders involved in the B.Com program and highlight areas of success and areas for improvement in program and course outcomes.

We offer recommendations for enhancing teaching strategies, curriculum design, assessment methods, and student support services to better align with the intended learning goals. We Consider factors that influence student performance, such as teaching methods, curriculum design etc.

Even we took feedback from all the stakeholders in this respect and try to take necessary steps accordingly. The institution monitors the impact of these changes on student attainment of program and course outcomes and continuously reviews and revise the assessment process and curriculum to ensure ongoing improvement in student learning outcomes.
